

## 2008 Oh Tannebaum-150 Years of Education

Congratulations to all the schools! The creativity of our young people and the staff of our Portage area school systems is amazing! We are always surprised by the thoughtful planning that the schools do to make these trees come to life! We would also like to congratulate the school system on an amazing anniversary and to say how proud we all should be of the commitment to superior education that everyone involved has made!

As the votes are tallied we did come up with a strong winner.....
