

While very few plants will tolerate 'wet feet' (soggy soil) some varieties adapt better than others to wet soil. Below is a general list of plants that will tolerate wet conditions.

Acer rubrum	Red Maple
Ajuga	Bugleweed
Amelanchier	Serviceberry
Astilbe	Astilbe
Betula nigra	River Birch
Chionanthus	Fringetree
Cornus stolonifera	Dogwood shrub
Forsythia	Forsythia
Hemerocallis	Daylilies
Hosta	Hosta
Itea	Itea
Metasequoia	Dawn Redwood
Miscanthus	Maiden Grass
Populus	Poplar
Salix	Willow
Taxodium distichum	Bald Cypress

Whether it's salt granules from deicing your sidewalk, or salt spray from roadways, salt can be really tough on most plants. Below is a general list of plants considered to be the most tolerant of salt. The list should only be used as a rough guide since exceptions will occur.

Amelanchier	Serviceberry
Betula	Birch
Cotoneaster	Cotoneaster
Eleagnus	Russian Olive
Erica	Heath
Fraxinus	Ash
Ginkgo	Ginkgo
Gleditsia	Honeylocust
Gymnocladus	Kentucky Coffee Tree
Hamamelis	Witch Hazel
Hydrangea	Hydrangea
Magnolia	Magnolia
Myrica	Bayberry
Nyssa	Sour Gum
Philadelphus	Mockorange
Photinia	Photinia
Pinus mugho	Mugo Pine

Populus
Potentilla
Rhodotypos
Rhus
Salix
Taxodium
Yucca

Poplar
Potentilla
Jetbead
Sumac
Willow
Cypress
Yucca
